● Jet track ● High-momentum hadrons track ● Exp Experimental talk ● Th Theory talk

Exported 59 positions.

Not decided	Jet	Substructure	HighPT	EEC	Small System	
Row 1	Move stack (4) 126 • JET Exp First observation of the jet-induced diffusion wake in PbPb dijet events 49 • JET Th Interferometry probe of the space-time structure of jet-induced medium response 379 • JET Th Probing QGP transport from hydrodynamic attractors to jet wakes 198 • JET Exp Evidence of medium response in PbPb and the first Z-hadron correlation mesurement in pPb collisions	Move stack (4) 272 • JET Th Formation time as a probe of early medium effects due to colour coherence 267 • JET Th Groomed Jets in Heavy-Ion Collisions with an NLO-Accurate Vacuum Baseline 311 • JET Th Multiplicity distributions in QCD jets and large-radius jet suppression with substructure dependence at the LHC 304 • JET Th QCD in-medium splitting kernels at full colour and exact kinematics	Move stack (3) 252 • HIGHPT Exp Hadron–strangeness correlations as a function of multiplicity in pp and p-Pb collisions with ALICE 87 • HIGHPT Th Dijet production in DIS at small-x: revisiting and rectifying the eikonal limit 40 • HIGHPT Th Effect of Hadronic Matter on Parton Energy Loss	Move stack (4) 371 • HIGHPT Exp Measurements of track energy-energy correlators in e^+e^- collisions using DELPHI open data 350 • HIGHPT Exp sPHENIX studies of QCD radiation in p+p collisions with energy-energy correlators and underlying event production 173 • JET Exp Probing jet modifications in the QGP using Energy Correlators in Pb-Pb collisions at $\sqrt{s_{\mathrm{NN}}} = 5.02$ TeV with ALICE 230 • JET Exp Measurement of Two-Point Energy Correlators in Ru+Ru and Zr+Zr collisions at STAR	Move stack (5) 128 • HIGHPT Exp Azimuthal anisotropy of charged particles with transverse momentum up to 50 GeV in OO collisions from the CMS detector 205 • HIGHPT Exp High-pT Triggered Dihadron correlations in OO, NeNe and pO collisions in CMS 292 • HIGHPT Exp Measurement of two-particle correlation in high energy e+e- collisions with enhanced W^+W^- contributions using the ALEPH archived data 218 • HIGHPT Exp Jet-like dihadron correlations in pO, OO, and Ne–Ne collisions with ALICE 65 • HIGHPT Exp Observation of parton shower modification in O+O collisions via gamma+hadron correlations with ATLAS	
	Row 2	Move stack (3) 207 • JET Exp Constraining heavy-quark gluon splittings in high-pt heavy-quark tagged jets 226 • JET Exp Modification of the Substructure of D_s^0-Meson-Tagged Jets in Heavy-Ion Collisions at STAR 281 • JET Exp Charm-hadron elliptic flow from small to large collision systems with ALICE	Move stack (4) 64 • JET Exp Probing jet quenching via jet substructure measurements in Pb+Pb collisions with ATLAS 315 • JET Exp Jet substructure measurements at LHCb 370 • JET Exp Jet substructure correlations in the archived ALEPH e+e- data at 91.2 GeV 176 • JET Exp Measurement of subjet fragmentation in pp and Pb–Pb collisions with ALICE	Row 2	Move stack (4) 214 • HIGHPT Th Sensitivity of Energy-Energy Correlators to Multiple QCD Regimes in Heavy-Ion Collisions 24 • JET Th In medium scale evolution of the energy-energy correlators for heavy ion phenomenology 8 • JET Th Probing Jet Quenching Dynamics with Higher-Point Energy Correlators 48 • JET Th Soft–Hard Correlations: A Study of EEC Evolution with Jet Internal Multiplicity	Move stack (4) 135 • HIGHPT Exp Measurement of charged particle nuclear modification factor in OO and study of nPDF effects using pO collisions 182 • JET Exp Neutral pion nuclear modification factor in OO and pO collisions 138 • HIGHPT Exp Probing parton energy loss via identified strange hadrons (K_S^0 and Lambda) in OO collisions at $\sqrt{s_{\mathrm{NN}}} = 5.36$ TeV with CMS 93 • JET Exp PHENIX results on high p_T direct photons and π^0 in small systems
		Move stack (4) 157 • JET Exp	Move stack (2) 349 • JET Exp		Move stack (3) 7 • JET Th	Move stack (4) 227 • JET Exp

Row 3	Investigating the origins of jet quenching with precision measurements of inclusive and semi-inclusive jet	sPHENIX measurements of jet production and properties in p+p	Edge effects in angular jet substructure in heavy ion	Observation of jet quenching in O+O collisions at $\sqrt{s_{\mathrm{NN}}}$ = 200 GeV with the STAR experiment at
	175 • JETExp Probing medium properties with jet energy flow modification in heavy-ion collisions with ALICE	177 • JETExp Mapping jet substructure with the Lund Plane and time re-clustering in pp collisions with ALICE	376 • JETTh Probing cold nuclear matter effects with energy correlators inside jets	66 • JETExp Probing medium effects in light-ion collisions with charged-hadron and inclusive jet measurements at ATLAS
	179 • JETExp Probing jet-hadrochemistry modifications with measurements of identified particles in jets and the underlying event in pp and Pb–Pb collisions with ALICE		39 • JETTh Collinear limit of Energy-Energy Correlators in pp and pA collisions	132 • JETExp The Lund jet plane in OO collisions
	62 • JETExp Measurements of flavor-dependent jet suppression in Pb+Pb collisions with ATLAS			254 • HIGHPTExp Multiplicity-dependent strangeness production in and out-of-jets in pp and OO collisions with ALICE
Row 4	Move stack (4)			Move stack (4)
	347 • JETExp sPHENIX measurements of photon-jet correlations in p+p and Au+Au collisions			169 • JETTh Jet Suppression and Azimuthal Anisotropy in O+O Collisions from RHIC to the LHC
	96 • JETExp Probing jet modification and substructure with gamma-hadron correlations and reconstructed jets in PHENIX			239 • JETTh A Breath of Fresh Air for Molière: Elastic Scatterings in OO Collisions
	348 • JETExp sPHENIX measurements of jet azimuthal anisotropy and global event correlations in Au+Au collisions at 200 GeV			67 • JETExp Probing Parton Energy Loss with Dijets and Jet Azimuthal Anisotropies in Light-Ion Collisions with ATLAS
	345 • JETExp sPHENIX measurements of dijet correlations in p+p and Au+Au collisions at 200 GeV			203 • JETExp Modification of jet shapes and energy-energy correlators in pp, OO, NeNe, and PbPb collisions
Row 5	Move stack (3)			
	77 • JETTh Medium-induced radiation in out of equilibrium QCD plasmas			
	263 • JETTh Hamiltonian real-time quantum evolution of particles in the Glasma			
	295 • JETTh Jet Modification in a 3+1D Medium Using the JETSCAPE Framework
